

Press Release: Static Roots Festival 2024 - A Celebration of Roots and Americana Music with a Social Conscience

Subtitle: The Sadies (CAN), The Delines (USA) and David Keenan (IRL) grace the Static Roots Festival

Oberhausen, Deutschland, 14.02.2024 - The Static Roots Festival, Germany's unique Americana and roots music festival, returns for its seventh edition on the second weekend of July 2024, promising another unforgettable experience for music lovers and culture fans. Since its inception in 2016, the festival has established itself as a firm fixture in the European music calendar, captivating audiences each year with a high-quality lineup of North American and European musicians.

Taking place in the heart of Oberhausen at the Zentrum Altenberg, the festival is renowned for its exceptional music program and international audience. As the only German Americana and roots music festival, Static Roots Festival fills a void in the German music scene. With bands and artists from the realms of Americana, folk, country, blues, rock, and singer-songwriter, Static Roots Festival offers a diversity that makes every music fan's heart beat faster. This year's headliners – The Sadies (CAN), The Delines (USA), and David Keenan (IRL) – represent one of the most impressive lineups of the year and underline the festival's international significance. Canadian radio host Jeff Robson will once again guide the audience through the festival.

In addition to its musical diversity, Static Roots Festival is known for its family atmosphere. It is a festival that welcomes all ages and truly lives up to the motto "roots music to feed your soul." The principle of "peace, love, rock'n'roll" is lived here, and every visitor can feel like part of the Static Roots family. Excellent food trucks and the wonderful team at Zentrum Altenberg round off the festival experience.

Another special feature of the festival is the Static Ruhr Tour, a cultural journey through the history and culture of the Ruhr region. This year, the tour leads to Villa Hügel in Essen and offers an excursion to Lake Baldeney, including a performance by a surprise musical guest.

In a captivating blend of music and literature, the Static Roots Festival 2024 proudly introduces an exclusive author's reading and book signing event with Willy Vlautin, acclaimed novelist and lead songwriter of The Delines. This session will take place in the intimate setting of the Kino im Walzenlager cinema at Zentrum Altenberg, on Saturday, July 13th, from 1pm to 2pm. Attendees will have the unique opportunity to delve into the stories behind the songs and explore the pages of Vlautin's latest novel, "The Horse." Adding to the event's allure, Freddy Trujillo, the talented bass player from The Delines, will enhance the atmosphere with a few songs from his recent album.

Social commitment is deeply embedded in the festival's DNA. Since its founding by Dietmar Leibecke in 2016, Static Roots Festival has supported the aid organization Doctors Without Borders. All proceeds from the sale of festival merchandise go to Doctors Without Borders. So far, more than 20,000 EUR have been donated in this way.

The international press is full of praise for Static Roots Festival: "The best festival in the world," according to the British magazine Bucketfull of Brains, while Rocking Magpie describes it as "one of the best in any category, anywhere." This recognition reflects the dedication and passion with which Static Roots Festival is organized every year.

Static Roots Festival cordially invites music journalists and fans to become part of the 2024 festival and experience a weekend filled with outstanding music, cultural discoveries, and social commitment. Join us as we celebrate our love of music and make a contribution to a better world.
